Our top tips:

- **The Bemberg foundation:** a foundation housed in the magnificent Hôtel d'Assézat Renaissance building and created by Argentinian collector Georges Bemberg, that reopened last February to bring together numerous works of western art from the Renaissance to the early 20th Century. www.toulouse-tourisme.com/en/activite/bemberg-foundation/
- **The "Musée des Arts Précieux" Paul-Dupuy:** in the heart of Toulouse old town, this original museum presents itself as a Cabinets of curiosities, with works from the Middle Ages to the late 1930s. You can admire a fine collection of clocks and watches, a reconstruction of a 17th-century pharmacy and a collection of medieval religious treasures.
- **Les Abattoirs,** Toulouse's contemporary art museum housed in a former slaughterhouse, offers a bold and thought-provoking journey through modern artistic movements, blending avant-garde exhibitions with a strong focus on social and political themes — a must-visit for creatives and culture seekers.
